Eligible to work in the UK: Yes

Industry: Construction

Total years of experience: 1

Work Experience

Apprentice Electrician

E7 electrical - Rotherham

February 2021 to September 2022

I worked as a apprentice electrician at this company for around a year and a half, I was working on council houses away in Northampton. I am looking for a new opportunity and a fresh start, I am already starting my second year at college

In this job we was doing fuse board changes, smoke alarm installs which included 3 smoke alarms, a carbon detector next to the boiler and a heat alarm in the kitchen. We would typically take a feed from the light into the smoke alarm with 1.5mm twin and earth, we would then link out the smokes and the heat alarm with wifi module links and link them all once power had been re-installed. As well as this, we did kitchen rewires, we were sent onto a program with different trades and would go into Northampton council houses to rewire the kitchens. This would include, brining the cable up to the 2nd amendment bs7671. We would also install new switches fused spurs where applicable and new sockets. As well as this we did bathroom upgrades, changing over the lights, pull cords and fans, we changed all fans to more 12v fans connecting a fan switch outside the bathroom. This was because of the fan being in a splash zone with it being near showers sinks and toilets

General Labourer

Andbridge property Ltd - Northampton

December 2020 to February 2021

I was firstly doing the rip outs for the kitchen program so that other tradesman could enter and carry on smoothly with the program. As well as the kitchen programs we also ripped out the bathroom due to a bathroom program being done as well

Labourer

Andbridge property Ltd - Middlesbrough

September 2020 to December 2020

I worked In Middlesbrough on student accommodation for a few months as a general labourer. I love working and determined to work as much as possible. The project was turning an old run down pub to an accommodation which I thoroughly enjoyed. I helped all sorts of tradesman to achieve their set goals

Education

GCSE or equivalent in Electrical apprentice

Jtl - Sheffield

September 2021 to Present
